Introduction About IACL Firm

Impact Africa Consulting Limited (**IACL**) is a professional consulting firm based in Nairobi, Kenya, offering pragmatic and innovative solutions to competitive African organizations in **Sustainability Advisory, Enterprise Support Services, Impact Assessment, and Capacity Building**. With expertise across the continent, we cater to a wide range of clients, including **private, public, multilateral, bilateral, development agencies, and nonprofit organizations**.

For over five years, IACL has provided consultancies and training services across Africa, gaining deep insights into the key challenges facing organizations. **Our philosophy is simple:** We provide tailored solutions to meet your specific needs, making us the preferred partner for countless African enterprises. **Our approach** involves a thorough understanding of your context, ensuring that our solutions are not only effective but also highly relevant and directly applicable to your organizational challenges.

At IACL, we prioritize aligning with global standards and best practices in all our service areas. Our team adheres to internationally recognized frameworks and methodologies, staying updated on the latest trends to offer cutting-edge solutions to our clients. We are committed to sustainability and uphold integrity, transparency, and accountability in all

our engagements, fostering trust and long-lasting relationships with our clients. With our guidance, you can achieve sustainable growth, contribute to society, and lead your industry towards a brighter future.

We are committed to
“Making our world better”

Vision: To be the top leader in sustainability and climate action advisory firm in Africa.

Mission: To contribute to sustainable development by adding value to our client's businesses by improving their economic, environmental, and social performance.
