 NITA NATIONAL INDUSTRIAL TRAINING AUTHORITY ENHANCING SKILLS SINCE 1925	 A CERTIFIED BLUE COMPANY MEMBER	

Climate advisory Services

IACL Climate Advisory Practice offers integrated solutions that help organizations navigate the complexities of climate change. We provide services across strategy development, emissions measurement, carbon market participation, and capacity building, enabling clients to manage risks, comply with regulations, and unlock climate-related opportunities. These practices include:

1

Climate Strategy Advisory

As an accredited GRI Training Partner, we offer globally recognized certification programs on sustainability reporting using GRI Standards. Participants receive official GRI certificates and benefit from practical exercises, case studies, and technical guidance.

2

Carbon Measurement, Reporting, and Verification (MRV)

We design carbon measurement systems covering Scope 1, 2, and 3 emissions in line with GHG Protocol and ISO standards. Our support spans emissions baselines, reporting, and internal MRV systems, helping clients achieve transparency, regulatory compliance, and readiness for carbon markets.

3

Carbon Credit Advisory

We offer end-to-end support for projects aiming to generate and monetize carbon credits under standards like Verra, Gold Standard, and GCC. Services cover project design, validation, credit registration, and market engagement, helping clients transform emissions reductions into revenue streams.

4

Climate Change Research and Training

We conduct research and deliver training on climate mitigation, adaptation, and policy. Topics include vulnerability assessments, emissions modeling, and carbon finance, using interactive methods to build capacity in governments, NGOs, corporates, and youth organizations across Africa.

Our Other Services

1. Training and Capacity Building

- GRI Certification Programme
- Tailored Sustainability and Climate Change Training Programs
- Fundraising Training Programs
- Customized Certification Training for Corporates and NGOs

2. Sustainability Advisory

- ESG strategy and reporting
- ESG audits and assurance
- Human rights impact assessments
- Impact reporting and compliance

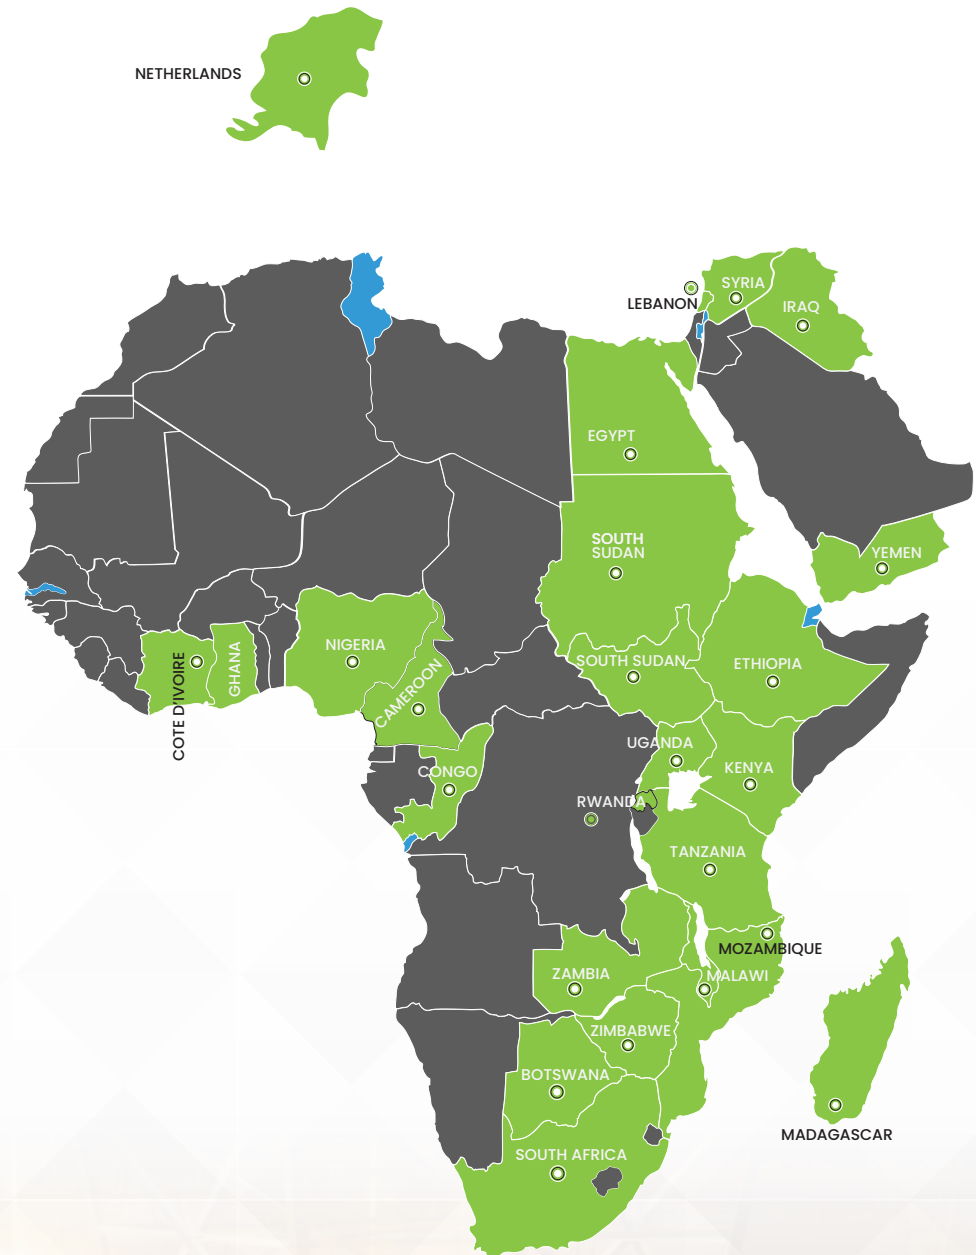

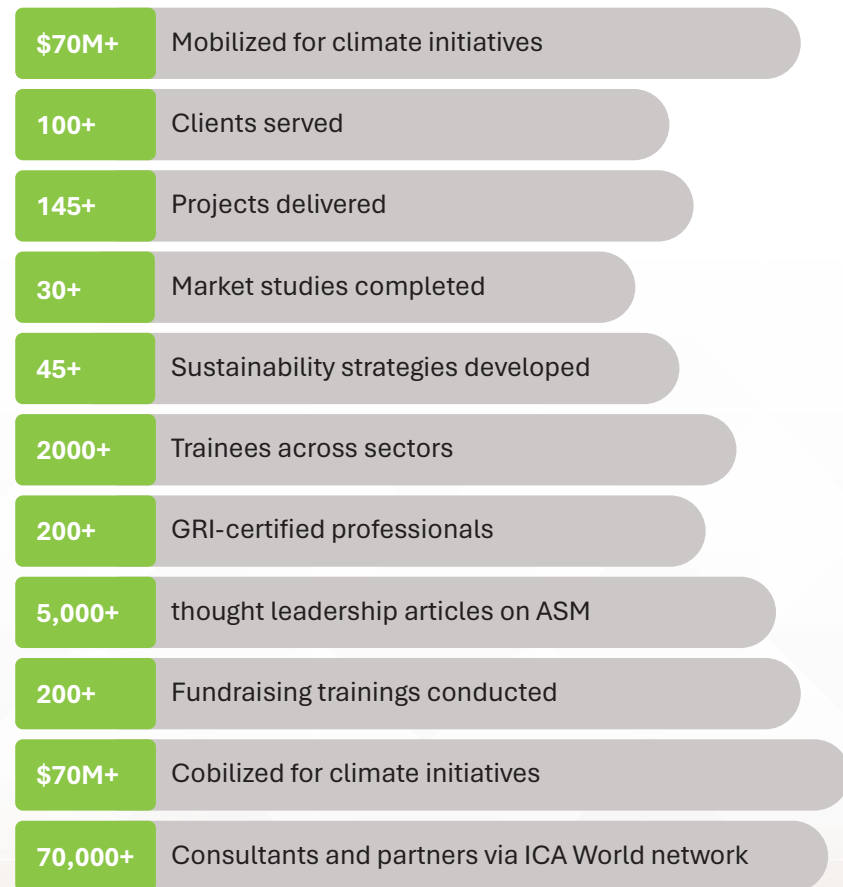

3. Enterprise Support

- Enterprise development and investor readiness
- Strategy formulation and implementation support

Our Reach And Impact

TRACK RECORD

Other initiatives

Africa Sustainability Practitioners Fellowship:

This fellowship exemplified Impact Africa Consulting's dedication to sustainability in Africa, operating fee-free as part of our Corporate Social Investment, nurturing an annual cohort of practitioners fostering long-term sustainability.

IACL Sustainability Hub:

The Africa SMEs Sustainability Hub helps SMEs integrate sustainable practices, redefining success through environmental, social, and economic impact.

Africa Sustainability Matters:

We keep you updated on the latest sustainability news and insights across Africa through "Africa Sustainability Matters". With daily posts, our platform reaches over 1,000,000 monthly engagements.

IACL Academy:

Through this academy, we offer multiple courses for corporates and NGOs, from physical to virtual trainings as well as self-paced training sessions with accreditations through our partnership with Credly.
