THE TEAM

ABOUT US

Impact Africa Consulting Limited (IACL) is a multidisciplinary professional services and consultancy firm headquartered in Nairobi, Kenya. We bring together a dynamic team of experts with diverse experience across Africa and beyond, dedicated to delivering high-impact solutions that drive sustainable development.

Our Speciality

Climate Advisory

Sustainability Advisory

Impact Assessment

Enterprise Support Services

Training and Capacity Building

Who we partner with

IACL partners with private companies, DFIs, foundations, governments, NGOs, and multilateral/bilateral agencies to advance sustainable development aligned with the SDGs and Africa's Agenda 2063.

IACL supports alignment with global standards like the SDGs, GRI, IFRS Sustainability Standards (S1 and S2), and local regulations. Their technical approach uses tools such as materiality mapping, ESG scorecards, risk registers, and impact measurement matrices.

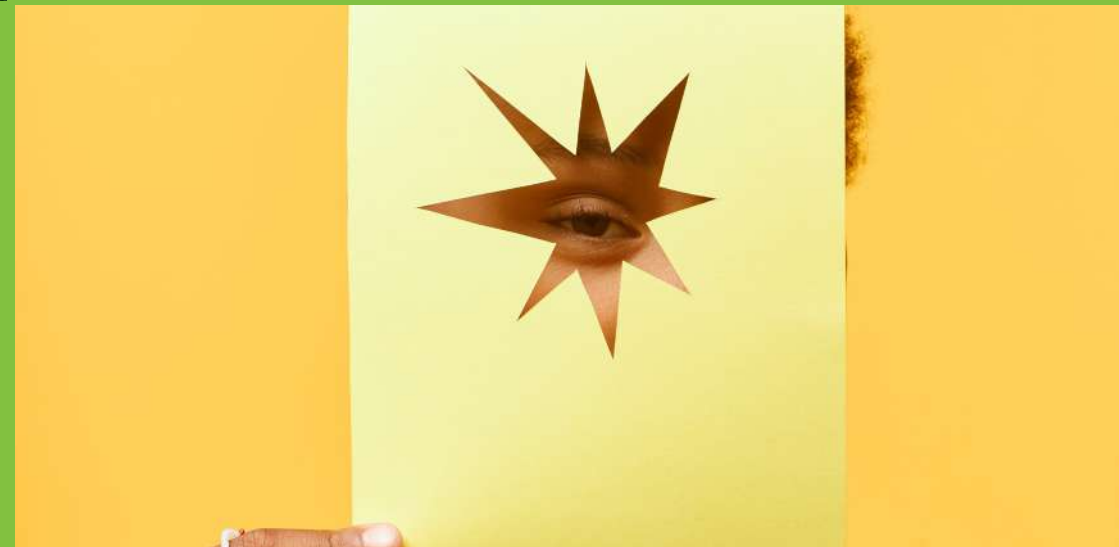

MISSION

To support sustainable development by improving our clients' economic, environmental, and social performance.

VISION

To be the global leader in business advisory across industries

CORE VALUES

INTEGRITY

EXCELLENCE

ACCOUNTABILITY

LEADERSHIP

CLIENT FOCUS

PARTNERSHIPS AND ACCREDITATIONS

Sustainability advisory practice

As a certified GRI training partner and recognized Blue Company, IACL provides Sustainability and Climate Advisory services, including:

1 Sustainability/ESG advisory services

We support organizations in embedding ESG principles into operations and strategy. Services include ESG strategy development, materiality assessments, risk analysis, and alignment with global standards (GRI, SASB, ISSB, UN Global Compact) and regional policies like Kenya's Green Economy Strategy and Africa's Agenda 2063.

2 Sustainability and ESG reporting

We help clients prepare sustainability and ESG reports aligned with global standards such as GRI, TCFD, and ISSB. Services cover indicator selection, stakeholder engagement, data collection, and drafting reports that enhance investor confidence, regulatory compliance, and stakeholder communication.

3 ESG/Sustainability assurance

We provide independent assurance of ESG and sustainability reports, validating data accuracy and adherence to standards like ISAE 3000 and AA1000AS. Our assurance statements strengthen credibility with investors, regulators, and partners, offering either limited or reasonable assurance scopes.

Sustainability Advisory Practice

4 ESG compliance audits

We conduct ESG compliance audits covering regulations, internal policies, and sector-specific requirements. Audits review environmental protection, labor practices, governance, supply chains, and data protection, delivering reports, risk registers, and action plans for regulated sectors and investment readiness.

5 Impact assessment and reporting

We design frameworks to assess and report social, environmental, and economic impacts of projects and programs. Services include baseline studies, evaluations, indicator development, and reporting using methods like theory of change, supporting donor compliance, investment analysis, and learning.

6 Human rights impact assessments

We perform HRIAs to identify and mitigate human rights risks linked to business operations and supply chains. Aligned with the UN Guiding Principles, our assessments address labor conditions, land rights, community impacts, and vulnerable groups, delivering reports and action plans.

Our Other Services

1. Climate Advisory

- Climate strategy development
- Carbon measurement, reporting & verification
- Carbon credit advisory
- Climate change research & training

2. Training & Capacity Building

- GRI Certification Programme
- Tailored Sustainability and Climate Change Training Programs
- Fundraising Training Programs
- Customized Certification Training for Corporates and NGOs

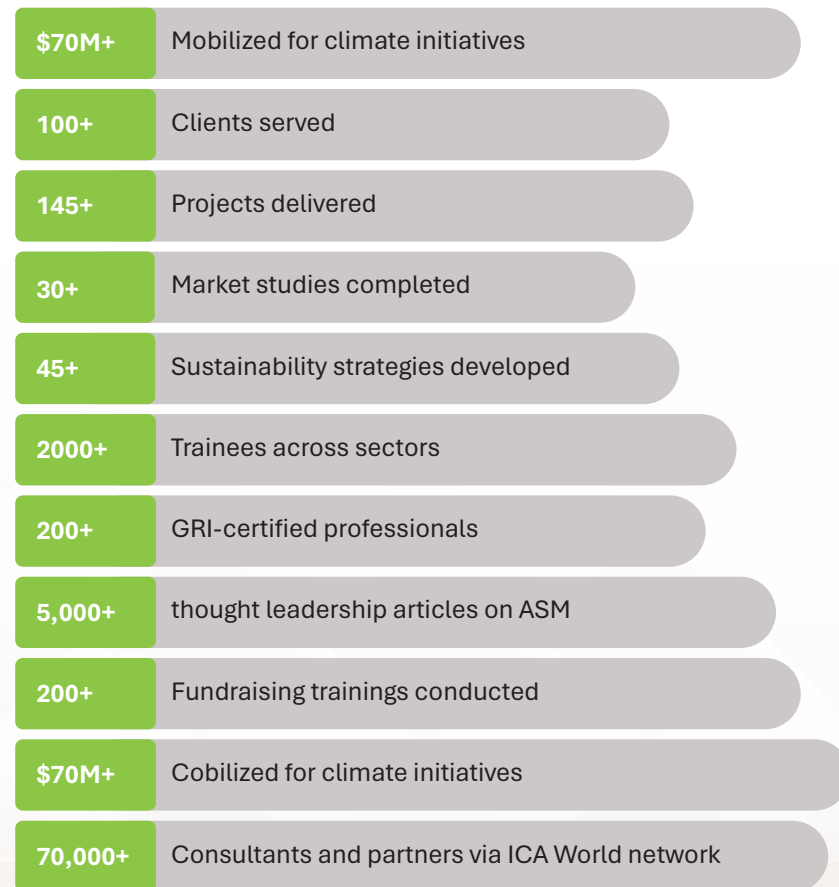

3. Enterprise Support

- Enterprise development and investor readiness
- Strategy formulation and implementation support
- Organizational Capacity Assessment
- Resource Mobilization and Grant/Fund Management
- Baseline assessment and M&E technical assistance
- Mid and End term Project Evaluations
- Health, Safety, Environment, and Quality (HSEQ) Services

Our Reach and Impact

TRACK RECORD

Other Initiatives

Africa Sustainability Practitioners Fellowship:

This fellowship exemplified Impact Africa Consulting's dedication to sustainability in Africa, operating fee-free as part of our Corporate Social Investment, nurturing an annual cohort of practitioners fostering long-term sustainability.

IACL Sustainability Hub:

The Africa SMEs Sustainability Hub helps SMEs integrate sustainable practices, redefining success through environmental, social, and economic impact.

Africa Sustainability Matters:

We keep you updated on the latest sustainability news and insights across Africa through "Africa Sustainability Matters". With daily posts, our platform reaches over 1,000,000 monthly engagements.

IACL Academy:

Through this academy, we offer multiple courses for corporates and NGOs, from physical to virtual trainings as well as self-paced training sessions with accreditations through our partnership with Credly.
